### **AR3.06 POLICIES REGARDING FINANCIAL SUPPORT OF ROLLER SKATING**

#### **AR3.06.01 Logo Identification on Skater Uniforms/Costumes**

Because of the elaborate nature of figure skating costumes, the size of the advertisement/logo must be limited to 3" at the largest dimension. A singular club patch or USARS approved sponsorship logo may be thus worn on either shoulder, the chest or in the case of females, on the skirt. This restriction applies to warm-up events prior to a competition, and the competition itself. However, for all award ceremonies, figure skating competitors may wear something other than their competitive costumes (substitute costume, warm-up suits, jackets, etc.) without any restriction on the numbers or size of logos or advertising, limited to USARS approved sponsors.

### **AR4.03 SAFETY AND HEALTH**

#### **AR4.03.01 Eyeglass wearers in Roller Figure skating must have plastic lenses, not glass, in their eyewear.**

### **AR5.02 CLUB REPRESENTATION**

#### **AR5.02.01 For figure skating team events (dance and pairs), the following split club affiliation is allowed:**

- (a) Members of different clubs (or unattached members) may skate team events together, each representing his or her own club (or unattached status).
- (b) Figure Skating Teams representing two different regions may choose either region they individually represent in which to enter as a team; however, their individual events (figures and free skating) must be entered in that region in which that skater's club is domiciled or their region of residence if unattached.

#### **AR5.02.02 Separate registration must be made by the skater in order to compete in figure skating events under the control and direction of the ARSF.**

#### **AR5.02.03 A skater may apply for only one membership card per year in each of the federations (figure skating, speed or hockey) under the control and direction of this Confederation.**

### **AR7.03 RESIDENCE**

#### **AR7.03.01 There are individuals who join a club before February 1 in a region other than that of their established place of residence for the purpose of creating a competitive pairs dance or relay partnership. After February 1<sup>st</sup>, should this partnership be dissolved and there exists no further reason to continue competing in a region where they are not a resident, they may apply to the USARS Executive Director for permission to return to the region of their residence. Should the Executive Director deny such a transfer, an appeal may be made to the Membership Eligibility Committee.**

- (a) Members in good standing within a foreign federation **with or without** "World Class status" who have received written approval from their federation **will be** permitted to skate in USARS Roller Figure Skating **Qualifying Championships**.
- (b) Skaters who participate, or who have participated in the World Championships representing a foreign country must, if they wish to participate in the USARS qualifying championships, skate in an equivalent division within the branch of skating (Figures, Free Skating, Team Dance, Solo Dance, Pairs) in which they participated at the World Championships. If the skater does not, or did not participate in those branches of skating at the World Championships, he or she is eligible to participate in those branches of skating in the USARS championships according to the USARS eligibility rules.
- (c) Foreign athletes **with or without** "World Class status" may not participate in the **National Championships** in Precision, Show *and Quartet* events, which are used to select USA representative teams for World Championships.
- (d) Foreign athletes **without** "World Class status" may compete in any USARS "A", "B", or "C" event as per their qualifications in USARS (refer to AR8.02.08).
- (e) "World Class status" for the above rules is interpreted to mean any athlete who has or is currently representing their country in the FIRS World Figure Championships.

### **AR7.04 ROLLER FIGURE SKATING TEAM ELIGIBILITY**

#### **AR7.04.01 In teams of any division, the two members of the team shall participate in the class in that event, in which the most advanced member of a team must participate; i.e., determined by the age of the older partner or the higher qualified classification of competition. In team divisions, in the event a Sophomore aged skater chooses to skate with a Freshman aged skater, the team is declared Sophomore; however, if the Freshman skater has already placed 1st, 2nd or 3rd, as a Freshman at the national championships, the team is declared Junior regardless of the age of the Freshman partner of the team. (Please refer to event rules). (EXCEPTION: In the Novice, Esquire, Masters, Veterans and Classic Divisions both team members must have reached the minimum age for the respective divisions. For Pairs team eligibility rules, see 8.02.)**

#### **AR7.04.02 Skaters that have placed 1-2-3 at a National Championship in USARS Youth Divisional events CANNOT return to a lower division. A skater who moves to a higher division because of his or her partner's age or division will be allowed to return to his or her appropriate division once that partnership terminates, provided the competitor is still qualified by age. National Championship placements in the higher division **exclude** a skater from this rule. Such skater after receiving 1, 2, or 3 at the National Championship must retain that status for future competitions and advance according to the rules.**

#### **AR7.04.03 A skater's qualifications for entry into each branch of roller skating competition (i.e., dance, figures, free skating, pairs, and free dance) are to be determined solely on the basis of the age requirements and/or previous experience within that particular branch of this sport. A person is allowed to enter only one division except for WORLD CLASS events or as stipulated in the challenge-up rules. For example, qualification as a Senior *Solo* in Dance skating would have no effect on one's eligibility to skate Sophomore Pairs, if one is eligible. (See AR8.00 - competitive division eligibility.)**

#### **AR7.04.04 Figure Skating Split Club Affiliation - Split club affiliation for all figure skating team events (dance and pairs) is permitted, regardless of regional affiliation, effective immediately. Teams may choose either of the two regions they individually represent**

in which to enter as a team; however, their individual events (figures, solo dance and free skating) must be entered in the USARS Region in which that skater's club is domiciled.

AR7.04.05 Team substitutions are permitted up to the start of an initial event leading to the national championships when a skater or skaters cannot participate. There is no provision for changing partners after the start of an initial event leading to the national championships.

- (a) When there is evidence that a team substitution is necessary, the meet director or comparable official must make the final decision if the substitution shall be permitted according to the following criteria:
  1. Demonstrable injury or illness to one member of a two-member team up until the scheduled starting time of a competitive event.
  2. When a member or members of a team have been disqualified from the remainder of the championships in an event other than that in which the substitution is requested, the meet director shall permit a substitution provided that the substitute is not drawn from a team entry registered for this event or another division within the same field of skating, i.e., taking a Junior **World Class** Dance team member to make a substitution for a **Senior World Class** Dance team.
  3. Substitution for reasons other than injury or illness may be filed with the meet director up to 7 days prior to the start of the first event of the championships provided (except as noted for speed):
    - a) Verification is presented that the team member who is being replaced is in agreement with the substitution.
    - b) Evidence is presented that the replaced member is unable to be present or to skate.
- (b) Any substitute on a team must not change the representative status of the original entry; i.e., club representation or unattached. (Exception: Figure Skating dance and pairs teams. See AR5.02.01.)
- (c) Any substitute must fulfill all eligibility and entry requirements for the championships including payment of the appropriate entry fees.
- (d) Any substitution must be concluded in time to skate the event at scheduled time.
- (e) Substitutions shall not alter or change another team already entered in the event.

AR7.04.06 When a skater becomes unattached through the lack of proper club representation, he/she shall automatically become unattached in any and all divisions of that federation of roller skating in which the skater may participate, and must thereafter compete as unattached for the period as designated in the transfer of club representation (AR5.02.02). (Exception: Art dance and pairs teams. See AR5.02.01.)

#### **AR7.05 ELIGIBILITY TO ENTER A ROLLER FIGURE SKATING CHAMPIONSHIP**

AR7.05.01 To enter an open qualifying or regional championship, a skater is required to file an entry blank, properly filled out, with the club sponsoring the championship before the advertised time for closing of entries.

AR7.05.02 To enter a National Championship, a skater must have placed 1, 2, 3 in a Regional Championship, received a **medical-by waiver**, as explained in AR11.13.07 or be subject to the sliding scale rule as explained in AR8.02.10. World champions are no longer given the option of bypassing regional qualification in their event, in the year immediately following their win at the world championships.

AR7.05.03 **Senior** World Class events at the Regional Championships

- (a) To qualify for the National Championships in a World Class **Senior** event, a skater/team must receive the following average scores from a majority of the judges at the Regional Championships. Regional placements and medals will be awarded. In **2014** all Junior **World Class/Senior** World Class events were under 30 entries and will use the following formula for **2015**.
  1. WORLD CLASS **SENIOR** TEAM DANCE - Teams must obtain an average score of **7.0** or more for each compulsory dance from a majority of the judges. Each individual score for Original Dance and Free Dance must also obtain an average score of **7.0** from a majority of the judges.

- (b) If the total entry in a World Class event was nationwide 30 or less, the following year all entries at the Regional Championship obtaining at least the minimum required score will qualify for the National Championships. Qualification for all World Class events at the National Championships is again required for World Team selection.
- (c) If the total entry in World Class event nationwide is 31 or more, Regional Championships with large World Class entries may use the following formula to send additional contestants on to the National Championships:
  1. Four or less entries, all qualify for the National Championships.
  2. More than four entries, the first four placements or two-thirds of the entry, whichever is larger, will qualify for the National Championships. Example: Five (5) skaters compete – 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, and 4<sup>th</sup> go to the Championships. Six (6) skaters compete – 1<sup>st</sup>, 2<sup>nd</sup>, 3<sup>rd</sup>, and 4<sup>th</sup> go to the National Championships representing two-thirds of the Region's participation. (For purposes of the above, entry means actual skating. Program listing will be disregarded in favor of score sheets.)

ELEMENTARY, FRESHMAN, FRESHMAN/SOPHOMORE AND SOPHOMORE skaters may compete in these events and in the same year compete in either a JUNIOR WORLD CLASS event and/or the **SENIOR** WORLD CLASS.
- (g) Once a National medal placement (1, 2 or 3) is obtained in a JUNIOR WORLD CLASS or **SENIOR** WORLD CLASS event, that skater will no longer be able to compete in the Level (A) division in that event in FRESHMAN, SOPHOMORE, JUNIOR OR YOUTH INTERNATIONAL SOLO in subsequent seasons.
- (h) **Any skater who participates in CLASSIC, JUNIOR/JUNIOR WORLD CLASS or SENIOR WORLD CLASS event in a qualifying championship may not skate in the same Level (B) event or any (C) division competition (e.g. Figure to figure, dance to dance).**

- The competitive age of skaters who enter any contest during a skating season (January 1<sup>st</sup> through December 31<sup>st</sup>) in which age determines eligibility shall be decided by the age of the contestant on January 1<sup>st</sup> of that competitive season. (See also AR7.04, Team Eligibility, for rules governing Team Dance and Pairs teams.) Anyone placing 1, 2 or 3 at the National Figure Skating Championships and meeting the minimum FIRS requirements of TWELVE (12) years of age as of January 1<sup>st</sup> shall have the option to move to WORLD CLASS in that event, in the year immediately following a placement. Once a medal placement, first, second or third is obtained in the National JUNIOR WORLD CLASS or SENIOR WORLD CLASS events, that skater will no longer be able to compete in the Level (A) events of FRESHMAN, FRESHMAN/SOPHOMORE, SOPHOMORE, JUNIOR, OR YOUTH INTERNATIONAL SOLO events in subsequent seasons.
  - All skaters who have previously competed in a Regional Championship final event who are TWELVE (12) years of age or older, have the option to move up to the next higher division unless otherwise required in the rules.
  - Establishing divisional status to a higher competitive classification depends on the actual skating of the event, not the filing of an entry application, except when receiving a waiver to a National Championship. Skaters are permitted to participate in both TEAM DANCE and SOLO DANCE, as they are eligible.

**ROLLER FIGURE SKATING COMPETITIVE MOVE-UP RULES**

Mandatory divisional move-up for Regional Championship placement is retroactively eliminated. For (B) and (C) Divisions, (See AR8.02.05) placement at the Regional Championships will permit optional move-up and challenge-up cross-over events at the skater's discretion. Skaters age FIFTEEN (15) and older, who have not placed first, second or third at the National Championships will be allowed to remain in their event or attempt the next higher division. Once skaters move-up to a higher division in the Level (A) events, they cannot return to a lower division, with the exception of AR7.04.02 that permits a skater to return to his or her appropriate age division once a partnership terminates. (Please also refer to AR8.02.05). Any skater who participates in CLASSIC, JUNIOR/JUNIOR WORLD CLASS or SENIOR WORLD CLASS event in a qualifying championship may not skate in the same Level (B) event or any (C) division competition (e.g. figure to figure, dance to dance).

**AR8.02.05 ROLLER FIGURE SKATING DIVISIONS AND MOVE-UP RULES**

Any skater/team who has never placed 1st-2nd-3rd in USARS events in the National Championship in the event involved (e.g. - figures, dance, etc.) is eligible to compete in the USARS Level (B) and/or Level (C) divisions. Any skater/team who has reached the maximum age in a Level (A) event without placing in the National Championship in Level (A) or Level (B) events has the option to move up to the next higher division and continue to compete in the Level (B), as well as the Level (A) events. (e.g. - Juvenile (A), move to Elementary (B) & (A) events).

- All Level "C" division events ~~will compete at Regional Championships Only~~ ARE REGIONAL-ONLY UNOFFICIAL NON-QUALIFYING EVENTS.**
- Skaters/Teams may remain in Level (B) until they place 1-2-3 at the National Championships when there are six (6) or more contestants, after which the skaters/teams must move to the Level (A) division in that event in subsequent skating seasons. In Level (B) events of five or fewer contestants, ONLY the skaters/teams who have placed 1<sup>st</sup> at the National Championships will be mandated to move to Level (A) in subsequent skating seasons.
- In the Men and Women Free Skating, NOVICE skaters who have placed 1-2-3 at the National Championships have the option to advance to the SOPHOMORE DIVISION or remain in the NOVICE FREE SKATING DIVISION.
- Skaters/teams that participate in Level (A) Divisions that do NOT place at a National Championship event may advance to the next higher (A) or (B) event.
- Any skater or team placing 2nd, or 3rd at the National Championships in an event that has five (5) or fewer contestants/teams shall have the option to remain in that division, or to move to the next higher division. This rule does not apply to divisions that have a maximum age limit. Placing in an event with five (5) or fewer contestants/teams has no effect on future eligibility. This exception does not apply to World Class events.
- At a Regional Championship, cross-over (A) and (B) skaters/teams may skate both division events to qualify for the National Championships. *If A-level and B-level eligible participants qualify to participate at the National Championships in both events containing six (6) or more Regional contestants, the skater/team may register ONLY in the A-level event at the National Championships. If skaters/teams qualify in only one event containing more than six (6) Regional contestants, they must skate that event at the National Championships. If skaters/teams qualify in uncontested events (five or fewer Regional contestants), they may choose the event in which to compete at the National Championships.* Placements of 1st, 2nd, or 3rd at the National Championships with six (6) or more skaters/teams will eliminate future participation in Level (B) in those events.
- Any "B" division skater/team who participates in an "A" division event and qualifies for the final round of the "A" division at the National Championships when there is an Elimination/Final round of competition is mandated to remain in the "A" division of that discipline in subsequent skating seasons.
- Skaters CANNOT skate Level (C) and Level (A) divisional events in the same qualifying Regional Championship. Level (C) division skaters may challenge the Level (B) division event of the same skating discipline during the same qualifying championships.
- At Regional and National Championships, dance teams and pairs teams MAY compete with DIFFERENT PARTNERS in A-level and B-level team dance and pairs events based on each partner's eligibility. In such instances, qualification is specific to that unique partnership. For example, qualification of the B-level team does not affect the eligibility of the A-level team or vice versa.*

AR8.02.07 Placements (1<sup>st</sup> -2<sup>nd</sup> -3<sup>rd</sup>) in any Level (A) event in the National Championship eliminates future participation in Level (B) and Level (C) in that event. (Refer to Team Dance and Pairs Divisions for move-up rules.) - NOTE from the Judge's Committee Chairman regarding Circle Loops: The inclusion of the Circle Loop figures in the USARS competitive structure as an intermediate transition step between the 6.0 meter long figures and the 2.4 meter loops. In providing this event, there are expectations that the skating of these circles will provide the necessary background and experience for the ultimate inclusion of the loop itself. It is not USARS expectation that the execution of these circle figures will be a simple miniaturization of the 6.0 meter circle equivalents. For example: in Figure 114; the outer forward loop circle figure: the body positions that are required preparatory to the execution of a loop are expected. Likewise, the body rotations and free leg "draw" through are to be used that are preparatory in nature.**
- (k) If a skater places 1-2 or 3 at the National Championships in a domestic figure/loop combined event, but does not place 1-2 or 3 in the individual events leading to the combined figure/loop national medal, the skater is not mandated to move to the next higher division in subsequent skating seasons.

- (f) Inline free skaters may enter both quad and inline events in the same skating season.
- (g) Degree of Difficulty is the level of skill needed to perform an item well relative to other items of the same kind. Obviously, for most skaters, some items in free skating are generally harder or take longer to master than others. Consequently, it is the intent of this section to offer some frame of reference concerning the skill level necessary to perform these basic items. Excessive repetition of the same item, without showing a variety of skating versatility must be given less credit in both Content of Program (Technical Merit) and Manner of Performance (Artistic Impression). No jump may be attempted more than three times in any USARS Standard division singles routines, with the exception of single rotation connecting jumps used in combinations. Exceeding this limitation will be penalized by a minimum deduction of 10 points by each judge. In a combination jump, each jump is individually counted for purposes of this rule (CIPA ARFS-G §1-2, p. 69).

6.0 - 6.9.....	fair
7.0 - 7.9.....	good
8.0 - 8.9.....	very good
9.0 - 9.9.....	excellent
10.0.....	perfect

**Two marks will be awarded: "A" MARK; Composition of the Program and "B" MARK; Presentation. If two positions are equal, the highest "B" MARK prevails.** Results will conform to the "CIPA" System otherwise known as the "White" system used from Free Skating.

Special Consideration by the Judges for the above marking system: The number of skaters on the rink in Large Groups is more difficult for the technical ability, and the choreography of a large number of skaters, and it is important to bear this in mind as below, with the emphasis always on the Technical of a Group:

**LARGE GROUPS:**

**"A" MARK**

- (a) Idea (theme), choreography and group technique ---- 60%
- (b) Technical difficulties of the skating and related movements ---- 40%

**"B" MARK**

- (a) General Impression ---- 40%
- (b) The accomplishment of the theme (idea) ---- 30%
- (c) Expressiveness and interpretation ---- 30%

**SMALL GROUPS:**

- (a) General Impression ---- 40%
- (b) The accomplishment of the theme (idea) ---- 30%
- (c) Expressiveness and interpretation ---- 30%

**Rink Illumination**

The Organizers, where possible, should ensure that the rink has a set standard of illumination for all Groups. The illumination should be around the rink to give the effect of a Stage for Shows (where applicable). The remainder of the Hall to be with subdued lighting. It is important that the rink itself is clear for the Judges to see all of the skaters at all time.

**Training and Warm Up**

In agreement with CIPA, the Organizer must ensure that all participants have sufficient training, following these rules: minimum 15 minutes per entry.

**Judges**

Five (5) or Seven (7) Judges will be invited by CIPA, depending on the number of groups entered. These judges MUST be competent in Judging Show events. **All CIPA deductions are available on USARS website.**

**2015 - Latin Combination.**

#### ORIGINAL DANCE SET ELEMENTS

- a) One straight-line step sequence, along the long axis of the rink, extending as near as possible the full length of the skating surface. During this step sequence the partners **MUST NOT** touch but remain no more than one arms length apart. **This element must be included.**
- b) One change of direction lift – one **SMALL LIFT MUST BE** executed with one change of direction – there must not be more than one half (1/2) revolution in the lift, only a change of direction (either change of edge and/or forward to backwards, or backwards to forwards), with the lady’s waist no higher than the man’s shoulder. **During the execution of this element it is not allowed for the lady to assume an upside down position with the legs in a split or semi-split position in front of the man’s face. This element must be included.**
- c) One diagonal step sequence together in any dance hold. **This element must be included.**

  3. The OD can be started at any place on the floor.
  4. EXECUTION -The choice of steps, connecting steps, turns and rotations is left to the skaters, provided those choices conform to the OD rules. This does not exhaust all the possibilities of steps, turns and rotations. Any steps are permissible, providing that at least one skate of each skater remains on the skating surface at all time throughout the dance except when performing the one required lift and the duration of music at the beginning and end of the music where specific movements are allowed, lying down on the skating surface and/or stationary movements in character with the music. Toe stop steps are permitted but remember whilst on the toe stop, there are no edges skated and therefore considered less difficult. Little hops (lifting of the skating foot a small distance from the floor) are allowed to express the character of the dance.
  5. Two stops are allowed during the dance that must not exceed TEN (10) seconds for each stop.
  6. Pulling or pushing the partner by the boot or skate is not permitted.
  7. Partners must not separate except to change dance holds, or to perform brief movements in character with the rhythm chosen, or during a permitted stop, provided that they are performed no more than TWO (2) arms - length apart and no more than TEN (10) seconds except for the beginning and end of the routines.
  8. There are no restrictions on dance holds, arm movement, hand claps etc. which are interpretive of the music.
  9. The dance must contain difficult movements and be expressive of the music.
  10. THE DANCE MUST NOT BE A FREE DANCE.
  11. During the first and last TEN (10) seconds of the OD, the following movements are allowed (but not obligatory):
    - a) laying with hands, knees or other parts of the body on the skating surface.
    - b) stationary movements in character with the rhythm of the OD.

Women must have a COMPLETE skirt. (CIPA SR3.12; 3.12.04) Props of any nature are not permitted to be used. All warm-up periods must be conducted in costume. These dress standards must also be observed for practice sessions when wearing alternate attire. Tank tops, cut offs and leotards without skirts are prohibited. Women skating costumes when worn outside the practice rink or competition site must be covered with slacks, street length skirt, coat or other normally accepted public attire. **Painting on any part of your body is considered "show" and is not allowed in figures, free skating, pairs or dance with the exception of all Creative events (Novice Precision, Junior Precision, Senior Precision, Sr. Show Team, Sr. Small Show Team, Open A Creative Solo Free Dance, Open B Creative Solo Free Dance, Elementary A Creative Solo Free Dance, Open A Inline Creative Solo Free Dance).** (See ARI I.02.03)
- (d) Music: The music chosen for the free dance is at the discretion of each couple. The music chosen must:

  5. orchestral music and vocal music is permitted.
  6. not have one rhythm so short that it fails to create a change.  
Acceptable music is as follows:
  7. all types including classical, ballet, folk and contemporary, providing it is suitable for dance skating;
  8. classical music like symphonies, sonatas, concertos ONLY if transcribed to the rhythm of dance music;
  9. parts of a ballet or opera only if transcribed or originally based on folk music, jazz or ballroom rhythms.

Any choreographic movement in which the partner is assisted aloft and has both feet off the floor shall be considered a lift.
- (f) Definitions of above:
1. A lift is an action whereby the woman is elevated to a higher level, sustained and set down. Mainly the man remaining on the floor provides the impetus of the lift. In the execution of a lift, the woman's waist must not be higher than the man's shoulders. The sustained position must be maintained through the support of the partner remaining on the floor. In all lifts, the supporting partner may give assistance with the hands or arms. Sitting or lying on the partner's shoulder is considered a feat of prowess and not allowed. The body may not be used as the main support for the sustained positions. Therefore, sitting or lying on the partner's shoulder is considered to be a feat of prowess and not allowed.

- (g) Limitations for technical content: Free skating movements such as turns, arabesques, pivots, jumps, lifts, partner separations, etc., are permitted with the following limitations:
1. **ENTRY AND EXIT ON THE FLOOR FOR DANCE.** When a couple is announced for compulsory dances, original dance and free dance, the entrance must be no longer than fifteen (15) seconds. The exit of the compulsory dances, original dance and free dance must be no longer than fifteen (15) SECONDS.
  2. Separations within the free dance to execute intricate footwork are permitted; number - maximum of five; duration - no longer than five seconds. Separations at the beginning and end of the free dance are permissible provided the distance between the partners does not exceed five meters and/or 10 seconds.
  3. Arabesques and pivots are permitted; number -combined total not to exceed three; duration - four measures of Waltz music (3/4 time) or two measures of other music (e.g. 4/4, 6/8, etc.).
  4. Spins are permitted. Number of revolutions not to exceed three.
  5. Dance lifts are permitted to enhance the performance of the program (not to display feats of strength or acrobatics). A maximum of five (5) lifts in free dance will be allowed. The number of revolutions may not exceed one and a half (1 ½), with the man's hands no higher than his shoulders. Any choreographic movements in which the partner is assisted aloft, and has both feet off the floor shall be considered a lift. The change of position in a lift is permitted. During a lift it is not allowed for the lady to assume an upside down position with the legs in a split for semi-split position in front of the man's face.
  6. Small dance jumps for the purpose of changing feet or direction are permitted; number - combined total by both partners not to exceed five; position - executed in dance position or at not more than two arm-lengths; number of revolutions - not to exceed half a revolution. Toe jumps are included in the total number permitted. Both partners may jump at the same time. Dance jumps of greater magnitude, executed by only one skater at a time are permitted; number - combined total by both partners not to exceed five; position - jumped separately or holding hands; number of revolutions - not to exceed one revolution. They must not be thrown or lifted. Assisted jumps are included in the total permitted.
  7. Short, jerky movements are acceptable only when they emphasize the character of the music.
  8. Stops in which couples remain stationary on the floor while performing body movements, twisting or posing, etc., are permitted; duration - not to exceed two measures of music.
- ATTENTION: all judges will make a deduction of marks if a free dance program exceeds the rules. (In International competition, all judges will make a deduction of 0.1 per violation if a free dance program exceeds the rules.)
- (h) Set elements that **MUST BE** included in a team free dance program are:
1. One straight-line step sequence, along the long axis of the rink (the middle of the rink), extending as near as possible the full length of the skating surface. During this step sequence the partners **MUST NOT** touch but remain no more than one arms-length apart. **NOTE:** The closer the couple skate this sequence without touching the more credit it will be given.
  2. One step sequence – performed together in any dance hold, either Diagonal OR Serpentine, extending as near as possible to the full length of the skating surface.
- (i) **TIMING VIOLATIONS – COMPULSORY DANCE, OD AND FREE DANCE**  
Any deduction made by a judge for incorrect timing to the music must be based on the duration of the fault. For a timing fault in, there must be a minimum deduction of zero point two (0.2). All CIPA deductions are available on USARS website.

AR I I.04.07 FREE DANCE will be judged as follows:

- (a) Technical Merit of program: difficulty of steps and movements, variety and inventiveness, sureness of edge running, cleanliness of movement, harmonious composition of the program as a whole and utilization of space.
- (b) Artistic Impression: expression of various rhythms, neatness of footwork, timing of steps to music, body timing, unison of team and carriage. The mark for content covers the elements of difficulty, variety, cleanness and sureness. They might be considered the athletic components of a couple's performance, the tangible part. Difficulty is evaluated as to the whole program, not just individual moves. Smooth, harmonious transitions are difficult and variety in itself is difficult. A program planned and skated well to the music, an essential in dancing, rates higher than one which does not relate so intimately with the musical phrasing and rhythm. A program performed with the firm edges well skated out, good lean, done with conviction and authority, shows cleanness and sureness over one that looks as though it is only half learned or is like a walking rehearsal. The mark for technical merit is an evaluation of the couple's skating ability as demonstrated in the program. The mark for artistic impression is to evaluate the aesthetic elements, the intangibles of the performance. They include the harmonious and artistic composition and arrangement of the program and its relation to the music chosen; balanced utilization of the skating surface; easy movements in time with the music; unison of the couple with each other and with the rhythm; and the dancer's form and carriage. Couples should consider the following areas when planning their free dancing program, and judges will look carefully for the fulfillment of:
  1. Is the structure of the program blended together in harmony of sequence and design?
  2. Is there a variety of difficulty; a variety of rhythm?
  3. Are the various parts of the free dance related? Does it move in a connected and continuous manner?
  4. Does the program show creative ability?
  5. Does the program have original and surprise moves?
  6. Have they complied with the rules as to the number of separations, jumps, etc.?

7. Do they have control, flow and glide?
8. Have good form, posture and unison been demonstrated?
9. Is the performance rhythmic; does it express the mood of the music?
10. ARE THEY REALLY DANCING???

(In international competitions, the judges for violations of the rules must make deductions for free dance marks.)

Footwork is very important and must be used to connect the various elements. Division into sub-groups is permitted but the featuring of a particular sub-group is not allowed. The division and rejoining of such groups must be performed smoothly and without interrupting the flow of the performance. A rules manual is prepared and available. The composition of the teams may include men and women in any proportion. Alternate team members must be duly registered, with fees paid for the competition and will be included with the team for any medal ceremony. Refer to AR8.02.700.

When the repair has been made, the affected flight will return to the skating surface and skate until the judges have completed judging the interrupted dance. At no time will another dance be skated until all the skaters or teams have been judged on the dance being skated at the time of the failure. Order of skating may be adjusted to continue the event.
1. During the skating of the flight, the skater/team beginning the dance (as specified by the announcer at the discretion of the event referee) shall have the right of way. Subsequent skaters/teams in that flight shall yield the right of way to skaters already in motion. Interruptions of skating based on failure to comply will result in a penalty of five (5) points for the offending skater/team. Such penalty will be assessed by the judge.
  2. In such instances, the involved skaters shall loop around and pick up the skating of the dance as close as possible to the point of interruption without interfering with the other skaters again and complete their normal repetitions of the dance being skated. The judges shall complete the judging of the skater/team interrupted without penalty.
  3. The event referee will determine whether the correct number of repetitions have been completed by both skaters/teams in the flight, and will instruct the judges of incomplete repetitions. **Please refer to AR35.04 (a) 2.**
  4. If, in the determination of the Chief Referee, the skater/team is in violation of these rules to gain competitive advantage, the Chief Referee will direct the tabulators to take a five (5) point deduction from each judge’s score. The Chief Referee may consult the event referee and event judge’s in making this determination.
- (h) In Figure Skating, the affected skater will report immediately to the referee. (Referee will note the time upon inspection of the failure and will allow the skater prescribed time to make correction.) The judges will judge the rest of the contestants on the figure being skated at the time of the failure. When the correction has been made, the skater will return to the referee to re-skate the figure in its entirety. The next figure will not be started until the affected skater has completed the figure during which the failure occurred. The affected skater will then assume his regular position in the skating order for subsequent figures.

### **AR17.13 FIGURE REFEREE - GENERAL DUTIES & RESPONSIBILITIES**

AR17.13.01 Figure referees should have on hand check-in sheets, skating order sheet for steward(s), clipboards, pencils, Figure and General Rules Manuals, and access to a mop, broom, and paper towels.

AR17.13.02 Figure referees will assign steward(s) for the event and explain their duties, which are:

- (a) Controlling the warm-up circles and making sure every skater has an equal warm-up period.
- (b) Keeping control of contestants by running a system where the next contestant is awaiting assignment to the warm-up circles. One skater is being judged, while one skater waits with the referee and three other skaters are on the warm-up circle.

AR17.13.03 The referee should verify that the floor is in proper condition during the warm-up and throughout the entire contest.

AR17.13.04 The referee should check that the figures listed to be skated are the correct figures, which were drawn, and that they are listed correctly in numerical order with the exception of Junior/Junior World Class and World Class figures which are not always listed in numerical order.

AR17.13.05 Warm-Up Procedure – Qualifying Championships

- (a) For the General Warm-up, whether it is an elimination or final, when there are ten (10) or more skaters, the total number of contestants shall be divided into two groups according to their order of skating. Group 1 will begin their general warm-

up on the designated competitive set of circles while Group 2 will begin their warm-up on the practice set of circles. At the halfway point of the allotted time, Group 1 will change to the practice set and Group 2 will move to the competitive set for the remainder of the warm-up period. The announcer or event referee shall time the warm-up period. Minimum warm-up time shall be ten (10) minutes.

- (b) For the Official warm-up, the first three (3) contestants in skating order will take the floor in one (1) minute intervals warming up on the practice set of circles. After three (3) minutes, the first skater is sent to the referee and the fourth skater is sent to the warm-up circles. From that point on, timing is no longer required. As each succeeding contestant is being scored, the next contestant in the skating order will begin his or her official warm-up.
- (c) REFEREE INSTRUCTIONS FOR ALL CIPA FIGURE EVENTS
1. Assemble the skaters and determine the total number of contestants to skate the event.
  2. Divide the total number of contestants by four (4) (the number of figures to be skated) to determine the grouping & who will start each new figure.
  3. If the number of contestants does not divide evenly, any odd number portions will be distributed into the first groups. For example, in a twenty-seven (27) skater contest, the first three groups 1, 2, & 3 will contain seven (7) contestants with a fourth group of 6.
  4. Call all of the skaters and coaches together and describe the procedure for the event.
    - a) Announce the skater numbers to start each new figure.
    - b) Point out the designated long and loop circles that they can choose to skate on.
    - c) Tell skaters there will be a ten minute (10) general warm-up for the first two figures to be skated and coaches are allowed on the floor during the warm-up.
    - d) An announcement will be made by the referee when five (5) minutes and one (1) minute remain in the warm-up.
    - e) At the conclusion of the ten (10) minute general warm-up, the floor will be cleared of skaters and coaches.
    - f) Coaches are not permitted on the floor during judging of the event.
  5. Judges should be standing by to begin scoring. The referee will inform the judges of any withdrawals and the skater numbers to start each new figure.
    - a) The first skater will be called onto the floor for the beginning of their official warm-up.
    - b) After one (1) minute, the second skater will be called onto the floor for their official warm-up
    - c) After one (1) more minute, the third skater will be called onto the floor.
    - d) After one (1) minute, the fourth skater is called to the floor. From that point on timing is no longer required.
    - e) The first skater will raise their hand the judging will begin. (There should always be one (1) skater being judged and three (3) skaters warming up.
  6. The first skater's score of each new figure will be averaged by the referee and the judges will be told of the average before moving on to the second skater.
  7. Skaters will take the floor in skating order for the first figure, after which rotation begins with the second figure.
  8. At the conclusion of the second figure skaters will not be allowed onto the floor for their general loop and last figure warm-up until ALL skaters have changed their skates or action and are prepared to warm-up.
  9. In Jr/JrWC and S~~r~~WC Figure contests, the size of the contest will dictate the amount of time allowed for changing skates. In contests of fewer than eight (8) contestants, a five (5) minute break will be given to the skaters to change skates. In contests greater than eight (8) but fewer than twenty (20), a ten (10) minute break will be given to skaters to change skates. In contests greater than twenty (20), a minimum of fifteen (15) minutes will be given. More time may be given as the schedule permits.
  10. When all skaters are ready, the referee will announce that skaters and coaches may take the floor for a general practice of ten (10) minutes to warm-up their two (2) remaining figures.
  11. Five (5) and one (1) minute warnings will be given during the second general warm-up.
  12. At the completion of the second general warm up skaters and coaches will be asked to leave the floor. Only working officials will remain on the floor.
  13. The first skater of the third group will be called onto the designated loop circles to begin their official two (2) minute warm-up.
    - a) After two (2) minutes, the second skater will be called onto the floor for their loop warm-up.
    - b) After two (2) more minutes, the third skater will be called onto the floor for their loop warm-up.
    - c) After two (2) more minutes, the fourth skater will be called onto the floor for their loop warm-up. From that point on timing is no longer required.
    - d) The first skater in group three (3) will raise their hand and judging will resume.
  14. Judging will continue until the last two (2) figures are completed.
- (d) For the men's and women's ADVANCED LOOP contests, the general warm up will be open with contestants having the option to warm-up on the loop set of their choice. At the conclusion of the general warm-up, the loop portion of the floor will be cleared with the exception of the contestants and working officials. For the official warm-up, the first three (3) loop contestants in the skating order will take the floor at one (1:00) minute intervals, except for the Advanced Loop Division, wherein the intervals should be two (2) minutes warming up on the loop set of their choice. After three (3) minutes, the first skater is sent to the referee and the fourth skater is sent to the warm-up loops. From that point on, timing is no longer required. As each succeeding contestant is being scored, the next contestant in the skating order will begin his or her official warm-up.
- The rotation of contestants in loop finals may require that the first skater to begin the second loop be given a two (2) minute break (beginning with the completion of his/her first figure) before starting the official warm-up for the second loop. Same format shall be followed for the third loop.

- (e) At the conclusion of the general warm-up for *Senior* World Class and Junior/Junior World Class Figures at the national championships, the floor will be cleared, with the exception of the contestants and working officials. In those facilities where feasible, a coaches' viewing area will be provided outside the skating surface barrier in close proximity to the working figure circles. *With entry larger than twenty skaters, their event will be skated in two segments of two figures and a minimum of a two (2) hour break between the segments.*
- (f) At the conclusion of the general warm-up of all other figure divisions, the floor will be cleared. Only the contestants warming up and the coaches of those skaters will be permitted on the skating surface. Once a contestant has completed his or her figure, the contestant and their coach must clear the floor.
- (g) FOR ALL DOMESTIC LOOP AND CIRCLE LOOP DIVISION EVENTS GENERAL WARM-UP IS AS FOLLOWS: the first three (3) skaters in the skating order will warm-up both figures on the practice set of loop circles for the two (2) minutes. After two (2) minutes, those skaters will move to the judging set of loop circles and continue warming up for an additional two (2) minutes, and then leave the circles. After the first three (3) skaters have moved to the judging set of loop circles, the next three (3) skaters in skating order will begin their warm-up on the practice set for two (2) minutes, and then move to the judging set. This procedure should be repeated until all contestants are warmed up. Once warm-ups are completed, the first three (3) skaters in skating order will take the practice set of circles in one (1) minute intervals to begin their official warm-up. After three (3) minutes, the first skater is sent to the referee and the fourth skater is sent to the practice set of circles. From that point on, timing is no longer required. As each succeeding contestant is being scored, the next contestant in the skating order will begin his or her official warm-up.

#### **AR17.14 CHECK-IN DUTIES - FIGURE REFEREES**

AR17.14.01 The referee shall check in all contestants in their order of skating.

AR17.14.02 Before starting the contest, the referee should have the announcer call for contestants who have not appeared for check-in. The referee, in turn, will inform the judges of any scratches and then divide contestants into groups for rotation of figures.

AR17.14.03 Any competitor reporting in after his or her event has completed the first figure shall not be allowed to compete in that event.

#### **AR17.15 GROUPING CONTESTANTS - FIGURE REFEREES**

AR17.15.01 Once contestants are divided into groups after final check-in, the groups will not be changed should a contestant withdraw from the contest.

AR17.15.02 TO DIVIDE CONTESTANTS INTO GROUPS for rotation of starting skater on each figure in the elimination round; the number of figures divides the number of contestants, with any remainder being divided equally from the first group down as needed. (EXAMPLE: if there are 29 contestants and 3 figures, the first group would be contestants #1 through #10, the second group would be contestants #11 through #20, and the third group would be contestants #21 through #29. Contestant #1 would skate the first figure first, the #11 contestant would skate the second figure first, with the first group moving to the end of the skating order. The #21 contestant would skate the third figure first with the second group moving to the end of the skating order.)

AR17.15.03 FINAL ROUNDS

- (a) In all figure events except *Senior* World Class and Junior/Junior World Class where there are five (5) or fewer skaters, there **shall not** be a rotation of skaters.
- (b) In events with six to eight (6-8) skaters, the rotation is obtained by simply starting each figure with the next contestant. Thus, the first contestant would skate the first figure first, the second contestant would skate the second figure first, with the first contestant moving to the end of the skating order, etc.
- (c) In Events with nine (9) or more skaters, they shall be divided into groups comparable to the amount of figures to be skated (i.e.; same as an elimination procedure). When an event has an odd number of skaters, the first group should have the largest grouping of skaters and will compete first. *See AR17.13.05(3).*

AR17.15.04 CIPA figure events to be conducted by the event referee in the same manner as during the world championships; i.e., the event referee will signal the skater to start with a soft whistle when the judges are positioned around the skater's circles or loops. In the Junior/Junior World Class and *Senior* World Class figure events, after each figure has been skated and completed by all of the contestants, the referee will collect the score sheets from each judge and hand the score sheets to the tabulators.

#### **AR17.16 MECHANICS OF FIGURE EVENT**

AR17.16.01 The first three contestants will begin their official warm-up. If there are two stewards, the first steward will take contestants in order of skating off the practice circle one at a time and have him report to the referee. As a contestant leaves a practice circle to be judged, the second steward will replace him on the practice circle with the next skater in line. If only one steward is available, he can perform both functions.

AR17.16.02 The referee shall verify that the correct skater has reported to him by checking the number on the contestant's back against his skating order list.

AR17.16.03 It shall be the duty of the referee to insure that the skater is properly informed of the figure to be skated.

- (a) Should the skater start a figure improperly, the referee shall stop the contestant and instruct him to restart correctly.
- (b) The referee shall inform the contestant of the edges/turns involved. Once the referee starts the skater on the proper foot, into the proper edge into the proper circle, the referee shall have no further responsibility regarding incorrect turns.
- (c) Providing he starts on the proper foot and edge, the contestant has the option to skate in either direction.
- (d) A skater who slips or falls on the initial strike-off may elect to restart one time without penalty, provided the skater's decision to restart is made during the first one-third of the first circle of the figure.

AR17.16.04 The Interruption of Skating rule applies as listed in the Figure Rule Book. (Please refer to AR17.12.06 (h & i) & AR17.25)

AR17.16.05 The drawing of the figures for Junior/Junior World Class and ~~Senior~~ World Class events for the Nationals Championships will occur on the official practice day prior to the scheduled practice times.  
National Figure Draw (All World Class Figure events) - Inclusion of the "opposite foot" of the group drawn for the regional championships WILL BE WITHIN the national draw. (See AR11.05.07)

### **AR17.17 REPETITIONS**

AR17.17.01 The skater being judged should be under the referee's observation at all times. **CIPA figure events to be conducted by the event referee in the same manner as during the world championships; i.e., the event referee will signal the skater to start with a soft whistle when the judges are positioned around the skater's circles or loops.** The referee is responsible for the completion of the required repetitions. All divisions, with the exception of Junior World Class and World Class, will skate two repetitions for both the eliminations and the finals. All World Class Figure events are skated as a final only. Three (3) repetitions will be required for all loop figures and those figures using a serpentine pattern. Paragraph figures will be limited to two (2) repetitions. The referee has the final decision on repetitions completed. Interruptions such as stopping on a figure, falls, loss of balance, broken skate, or interference could occur at any time. The referee, therefore, must be constantly prepared for the unexpected since he/she will have to give further instructions to the contestant and advise the judges should the need arise.

### **AR17.18 CONCLUDING THE FIGURE**

AR17.18.01 If in concluding the figure, the candidate uses an additional take-off, the referee shall verbally instruct him to stop. However, if the figure is concluded by a roll-off on the short axis, the referee need not say stop. It should be noted that a comment such as "thank you" could be said as each contestant finishes the figure.

### **AR17.19 INTERRUPTION OF A FIGURE**

AR17.19.01 A skater who slips or falls on the initial strike-off may elect to restart once without penalty provided the skater's decision to re-start is made during the first one-third of the first circle of the figure.

AR17.19.02 In a case where, for any reason, the skater through his own fault, falls, drops a foot, or stops a figure, the referee shall instruct him to restart at a point just prior to the interruption. This distance shall be left to the discretion of the referee. Such factors must be given due consideration in determining the score while still giving full consideration to the other judging points of the figure. The major faults of figure skating and their corresponding point deductions include:

- (a) Putting the free foot on the floor will cause the assigned score to be reduced a minimum of 10 points.
- (b) Falling on a figure will result in the assigned score being reduced a minimum of 20 points.
- (c) Unwarranted rock-overs or changes of edge, producing an incorrect turn, shall be penalized according to the degree of the error.
- (d) An incorrect turn, a three turn instead of a bracket, or a rocker instead of a counter, will be assigned a score reduction of a minimum of 20 points.

\*It is the responsibility of the referee to inform the judges of these major faults immediately after the involved skater has completed the figure. Establishing a pure edge, even one that is not on the line, is the most important part of tracing. Tracing, even though on the line, which is affected at the expense of edge quality (skate wobble), shall be penalized. The momentum of the figure is evaluated by the consistency of edge and speed. (ARFG-D-18, pg. 36-37)

AR17.19.03 In cases of outside interference when the skater does not stop, the referee may allow the skater to finish the figure and then give him the option of re-skating or letting the figure stand. The skater will also have the option without further warm-up to re-skate immediately after the interference, or after the last skater of that figure, then take his or her normal place in the order of skating. If the skater chooses to re-skate, the referee shall instruct the judges to ignore the prior figure skated and judge the re-skated figure anew without penalty.

AR17.19.04 If the referee inadvertently stops the skater before the proper repetitions have been completed, it shall be considered, as outside interference and the skater shall have the option of re-skating the entire figure anew or completing the figure from the point of interruption.

AR17.19.05 The chief referee should be consulted on any questions of interference.

### **AR17.20 ORDER OF SKATING FINAL ROUND**

AR17.20.01 Figure finalists will skate in inverse order from their appearance in the elimination round.

### **AR17.21 REFEREE - GENERAL DUTIES & RESPONSIBILITIES FOR ALL EVENTS OTHER THAN FIGURES**

AR17.21.01 The referee must have on hand two (2) stop watches, whistle, check-in sheets, clipboards, pencils, Free skating (or Dance) and General Rules Manuals. The referee should also have access to a mop, broom, and paper towels.

AR17.21.02 The referee should carefully check the skating surface before the event starts.

### **AR17.22 CHECK-IN**

AR17.22.01 The system for check-in is at the discretion of the meet director and may be accomplished by any or all of the following methods:

- (a) Turning in music to the music coordinator.
- (b) Informing the referee of the intent to skate prior to the start of the official event.
- (c) If after the event has started, a skater is missing when it is their time to skate, the referee shall direct the announcer to call for them. If the skater does not appear, the referee shall inform the judges that the skater has withdrawn and continue the event. Once this happens, the skater may not re-enter the contest.

**AR17.23 WARM-UP DUTIES**

- AR17.23.01 Immediately after the final check-in the chief referee or the referee of the event divides the contestants into warm-up groups if necessary. The number of contestants in a warm-up should not require the last skater in a group to wait more than 30 minutes before competing.
- AR17.23.02 Time each group accurately and have the announcer inform the skaters when one minute is left in their warm-up period. There will be a mandatory one-minute break after each official group warm-up. This will allow the first skater to have the maximum warm-up time.
- AR17.23.03 Warm-up time may be based on the maximum skating time allotted for each division. A longer period can be given, however, if the schedule allows. Generally, one minute more than the maximum skating time is given.
- AR17.23.04 The warm-up will be considered as part of the event and if a skater breaks his skate or has a costume failure during the official warm-up, he will be given the time under the Interruption of Skating rule to make the needed correction.
- AR17.23.05 JUNIOR WORLD CLASS and ~~SENIOR~~ WORLD CLASS PAIR and FREE SKATING contestants will redraw for the long program order of skating. Contestants will be divided into groups according to their placement in the short program and will draw for their order of skating within their placement group (i.e., in an event of 24 contestants, Group 1 would consist of short program placements 9 through 24, with placements 1 through 8 comprising Group 2). Group 1 will skate first. Maximum number per singles warm-up groups shall be six, with no more than eight. Maximum number per pairs warm-up shall be four.

**AR17.24 TIMING OF ROUTINES AND COMPULSORY DANCES**

- AR17.24.01 Both the referee and assistant referee shall time each routine. The timing of the routine shall begin when the skater moves any part of his or her body.
- AR17.24.02 WORLD CLASS Events routines that exceed, or are under the minimum allowable stipulated time with a variance of +/- 5-10 seconds will receive a penalty of .3 to .5 deduction. Any content that exceeds the maximum time will receive no credit. All other events that have a maximum time have no variance and therefore if the maximum time is exceeded, the Chief Referee will assess a 3-5 point deduction, depending on the degree of excess time. (See CIPA 3.10.04)
- AR17.24.03 In the case of an interruption of skating, only one of the event referee's watches is to be stopped at the point of interruption. The second watch continues to run in the event the skater continues to skate. If it is determined that the failure falls under the Interruption of Skating Rule, the appropriate time limit shall be enforced and the routine re-skated, with judging commencing at the time noted on the stopped watch. (Both judges and referee shall watch the re-skate in its entirety to make certain the routine is performed as originally skated to the point of interruption.) If the failure does not fall under the Interruption of Skating rule, the judging continues until the maximum time is reached, provided the skater continues to skate the routine. If he does not continue to skate and the minimum time was not reached, he is disqualified, except for WORLD CLASS PAIRS or FREE SKATING competitions.
- AR17.24.04 Opening Steps for Domestic Compulsory Dance events. Timing starts with the first movement of the skaters. A movement is defined as any movement of the arm, leg, head or foot.

**AR17.25 INTERRUPTION PROCEDURES**

- AR17.25.01 The Interruption of Skating Rule applies-timing is handled as above.
- AR17.25.02 If costume failure becomes hazardous, indecent, or embarrassing, the referee must stop the skater and order a re-skate, with the judging to commence at the point of interruption.
- AR17.25.03 If a skater leaves the floor for any reason other than those stated under the Interruption of Skating Rule during his routine; he shall be disqualified.
- AR17.25.04 If a skater's wellbeing is in question because of illness or injury sustained during the warm-up or judging, the referee should stop the skater. This would not result in disqualification if the skater could continue within a fifteen-minute period.
- AR17.25.05 Upon the failure of music during a free skating routine, the referee should note the time when the failure occurred and determine the reason for the failure. However, the decision of whether the skater should continue to skate rests solely with the skater and his/her teacher. If, however, the equipment on hand caused the music failure, the skater shall have an option of re-skating the routine in its entirety, with the judging resuming at the point of music failure.
- AR17.25.06 In free skating, the warm-up will be considered as part of the event and if a skater breaks his skate or has a costume failure during the official warm-up, he/she will be given the time under the interruption of skating rule to make the needed repairs.

**AR17.27 ORDER OF SKATING FINAL ROUND**

AR17.27.01 The order of those advancing to the final round shall be in inverse order of their appearance in the elimination round. For JUNIOR WORLD CLASS and WORLD CLASS, see AR17.23.05.

**AR17.28 DANCE REFEREE - GENERAL DUTIES & RESPONSIBILITIES**

AR17.28.01 You must have on hand two (2) stopwatches, check-in sheets, clipboards, and pencils, Dance and General Rules Manuals, access to a mop, broom, and paper towels.

AR17.28.02 The referee may appoint a music coordinator and/or assistant referee to act as timer, or he may elect to do this himself.

**AR17.29 CHECK-IN**

AR17.29.01 The referee is responsible for checking-in, or seeing that the “male partners” have been checked-in. Usually, this is done one-half hour ahead of scheduled start.

**AR17.30 MUSIC**

AR17.30.01 The referee shall check the tempo of the dance music, as well as the metronome, by use of a stopwatch.

AR17.30.02 The referee shall observe that the organist is playing to the time set by the metronome.

**AR17.31 FLIGHTING**

AR17.31.01 IN DANCE EVENTS, the flighting is done before the meet starts and if any scratches occur, the teams affected skate with only the teams present. No re-flighting need be done due to scratches, unless a flight contains only one team. All dance flights should be made up of at least two teams. In SOLO DANCE, flights shall consist of a maximum of FOUR skaters for the elimination and semi-final rounds with the same flight formulas used in the finals as for team dance. (See AR11.13.03 Solo Dance)

AR17.31.02 REGIONAL FLIGHTING FOR SEMI-FINAL AND FINAL ROUNDS for dance events must follow the rules covering same as listed in the General Rules Manual under the heading, Order of Skating - Dance Skating. (See AR11.13.03 Solo Dance)

- (a) In contests of TWELVE (12) or fewer teams, a final event only shall be skated.
- (b) TEAM DANCE (Refer to AR11.13.02)
- (c) SOLO DANCE (Refer to AR11.13.03)
- (d) Semi-final events shall consist of at least twelve (12) teams. In the case of a very large entry, the meet director shall determine the number of teams to skate the semi-final. (See AR11.07.04.)
- (e) In contests of TWELVE (12) or fewer skaters/teams, a FINAL ONLY event shall be skated.
- (f) In WORLD CLASS Dance events, the teams and World Class Solo Dance will skate one at a time according to the skating order drawn.

### AR17.32 WARM-UP PROCEDURE

AR17.32.01 The number of teams selected for warm-up groups is determined by the nature of the dance and how many dance teams can practically warm up at one time. All warm-up periods must be accurately timed and shall be of equal length for each group.

#### (a) DANCE EVENTS

1. WARM UP – For all dance events except World Class and Junior/Junior World Class team and solo when three (3) flights are to be skated, warm up will be as follows:

First Dance – Warm up flight #1 for 2 minutes, clear floor, warm up flight #2 and #3 for 2 minutes, clear floor, skate first dance with flight #1 starting first.

Second Dance – Warm up flight #2 for 2 minutes, clear floor, warm up flight #3 and #1 for 2 minutes, clear floor, skate second dance with flight #2 skaters starting first.

Third Dance – Warm up flight #3 for 2 minutes, clear floor, warm up flight # 1 and #2 for 2 minutes, clear floor, skate third dance with flight #3 starting first.

When more than 3 flights skate, warm up will be in equal groups with the flight to skate the next dance first in the first warm up group

2. In dance competitions, each successive dance will individually be warmed up and then skated. For purposes of warm-up, flights will be combined into groups, using any currently acceptable method. The group that contains the flight that starts the next dance always warms up first. For example: In an event of nine flights and three dances, the teams are divided into three groups. Flight 4 (in group 2) will start the second dance; therefore, Group 2 will warm up first. Flight 7 (in group 3) starts the third dance so group 3 will warm up first.

#### (b) WORLD CLASS COMPULSORY DANCE (TEAM & SOLO)

All teams will warm-up on the first dance to be skated, followed by all teams and solo skaters being judged on that dance. After the judging of the first dance, all teams and solo skaters will be given a warm-up period on the second dance, followed by the judging of that dance, etc.

1. **The dance warm-ups for the Junior World Class and Senior World Class Dance events (Solo and Team) will be thirty (30) seconds without music and then one piece of music for the dance will be played.**
2. **If there is a skater/team drawn to skate in the first compulsory dance in the last group and in the second compulsory in the first group, there will be a break of five (5) minutes between the first and second dance for a change of costume if the skater's wish.**

### AR17.33 FLIGHT ROTATION

AR17.33.01 DANCE - ELIMINATION AND FINAL ROUNDS

- #### (a) Flights are to be divided according to the number of dances to be skated, with the exception of two dance divisions.

1. In events with 3 dances and 5 or less flights, flight one (1) will start the first dance followed by the rest of the field of competitors.
2. Flight 2 will start the second dance followed by the rest of the field of competitors.
3. Flight 3 will start the third dance followed by the rest of the field of competitors.
4. When the flights increase to five (5), the rotation will change as follows: The 1<sup>st</sup> flight will start the first dance; the 3<sup>rd</sup> flight will start the second dance and the 5<sup>th</sup> flight will start the third dance. The largest number of the remaining flights will be in the last group. This will allow the flight that is to start the next dance the maximum time to prepare for that dance.
5. In events with 2 dances, AR17.33.01(a) #1 will be followed

- #### (b) In all Final events, (Team & Solo Dance), at the National Championship, the starting of the dance will rotate by contestant number. In the drawn flights, the lowest number will begin the first dance, followed by the next lowest number Team or Solo skater who will begin the second dance, while the third dance will begin with the third lowest number in the flight where applicable.

### AR17.34 FLIGHT TIMES AND REST PERIODS – (Dance events other than SENIOR WORLD CLASS AND JUNIOR WORLD CLASS TEAM & SOLO)

AR17.34.01 In all events (with the exception of AR17.34.02, AR17.34.03), flights will skate a three (3) minute judging period with a thirty (30) second rest for skaters between the judging periods, until the judging of a flight is complete. Timing periods shall begin with the start of the first team/skater. NOTE: If rest periods are necessary, skaters are not allowed to leave the skating surface.

AR17.34.02 In (NOVICE A (team and solo), ESQUIRE A (team and solo), MASTERS A (team and solo), VETERANS A (team and solo), GOLDEN A (solo), PREMIER A SILVER (team and solo), GOLDEN (A) (Solo), NOVICE (B) (Team or Solo), ESQUIRE (B) Solo flights of two will skate four (4) repetitions of the dance and flights of one will skate two (2) repetitions of the dance.

**\* PLEASE NOTE:** Repetitions for FULL CIRCUIT DANCES i.e.; Chase Waltz, will be required to skate four (4) times around the skating surface for a two skater/team flight. **The judges will signal the event referee if they are completed with their scoring prior to the required repetitions.** For a one skater/team flight, two (2) times around the skating surface will be required for competition. **The judges will signal the event referee if they are completed with their scoring prior to the required repetitions.** For flights of two, the lower-numbered contestant shall start the first and third dances and higher-numbered team will begin the second dance.

AR17.34.03 Premier A Gold (Team or Solo) and Classic A (Team and Solo) flights of two will skate a maximum of TWO (2) minute judging periods with a 30 second rest for skaters between skating periods, until the judging of a flight is complete. Timing periods shall begin with the first skater/team.

### AR17.35 INTERRUPTIONS

AR17.35.01 The floor should be continually checked for foreign objects or outside interference. Careful observation of each flight is mandatory in order to make accurate and firm decisions on such occurrences as broken skates and interruptions in skating. The chief referee should be consulted for decisions on interruptions.

AR17.35.02 The Interruption of Skating Rule applies as stated in AR17.12.06.

AR17.35.03 In cases where a **CD** skips or the organist makes an error, this shall be considered outside interference and the flight will be stopped and restarted. If a complaint is made concerning the organist's phrasing during the skating of a flight and the complaint is valid, the flight may be restarted. No action is taken if a complaint of this nature is made after the flight has been completed.

#### AR17.35.04 Interruptions Due to Skater's Fault

- (a) **ALL DANCE EVENTS** - The **team or solo skater** will pick up the dance by use of a rolling start and continue to skate until judging of the flight is completed. They may start into the dance at any point, and not necessarily prior to the point of interruption. **This rule also pertains to division events that compete in a TWO (2) skater/team fighting. (Please Refer to AR17.12.06 (h) & (i)) which says:**

During the skating of the flight, the skater/team beginning the dance (as specified by the announcer at the discretion of the event referee) shall have the right of way. Subsequent skaters/teams in that flight shall yield the right of way to skaters already in motion. Interruptions of skating based on failure to comply will result in a penalty of five (5) points for the offending skater/team. Such penalty will be assessed by the judge.

1. In such instances, the involved skaters shall loop around and pick up the skating of the dance as close as possible to the point of interruption without interfering with the other skaters again and complete their normal repetitions of the dance being skated. The judges shall complete the judging of the skater/team interrupted without penalty.
2. The event referee will determine whether the correct number of repetitions have been completed by both skaters/teams in the flight. If an Adult Team or Solo dance skater leaves the floor before all required repetitions of their dance have been completed, the Event Referee will instruct the Announcer to ask the Team or Solo dance skater to please come to the officials stand. They should be informed that they did not complete the required repetitions for the dance being judged and they should skate the portion of the dance that was not previously completed and then leave the floor. The event referee is to inform the event judges as to what happened and it will be the judge's decision to take any deduction they deem necessary.

If, in the determination of the Chief Referee, the skater/team is in violation of these rules to gain competitive advantage, the Chief Referee will direct the tabulators to take a five (5) point deduction from each judge's score. The Chief Referee may consult the event referee and event judge's in making this determination.

3. Each dance contains a sequence of prescribed steps to be skated in each repetition of the dance. The execution of these steps must be given proper consideration in determining a score for the dance. Interruptions in skating that are not covered by the broken skate rule must be considered in assigning any mark. In assigning a mark the following rules apply:
  - a) Sequences of steps that involve one repetition omitted or completed with incorrect steps will result in a deduction of a minimum of 10 points to a maximum of 20 points, depending on the length and severity of the omission or incorrect steps done. For example, if a skater completed one entire dance sequence using incorrect steps, a deduction of 20 points would be appropriate. If only one-half of the sequence was done with incorrect steps, then a deduction of 10 points would be appropriate.
  - b) If the error continues in all scored repetitions, the skater's score will be further reduced according to the same formulation.
  - c) If a skater or team restarts the dance and then completes the dance correctly, the deductions as described in (a) above will apply to the portions of the dance done incorrectly before the restart.
  - d) Any dance that completes the correct number of repetitions will earn at least a MINIMUM score, as defined in the integer system as a completed dance (i.e. 20 or higher.) For example, if a skater does all scored repetitions of the wrong dance, a score of 20 would be warranted. It is the responsibility of the judges to take the above deductions, yet the referee has the responsibility to advise the judges of infractions. If a Referee has missed the error and a Judge/s has noticed, the Judge should advise the Referee of this. The Referee then should advise the other panelists of such infractions. The referee is responsible to begin the flight with the proper skaters and rotations. Should the wrong skater begin the flight, the referee will stop the flight and restart the flight. The skater is responsible to begin the dance according to the rules established for opening steps as described in the dance diagram and to complete the required number of repetitions of each dance.
- (b) **SENIOR WORLD CLASS** and **JUNIOR WORLD CLASS (Compulsories)** - The team or solo skater will pick up the dance at the nearest technically feasible point prior to the interruption and complete the required repetitions.
- (c) If a skater or team does not report to the referee and leaves the floor for any reason, the skater or team shall be disqualified, unless the judging has been completed.

### AR17.36 MECHANICS OF THE DANCE EVENT

AR17.36.01 All dance events (except **SENIOR WC** and **JUNIOR WC TEAM AND SOLO**) consist of compulsory dances in all rounds of competition and have elimination, semi-final, and final rounds as needed.

AR17.36.02 In **JUNIOR WORLD CLASS** and **SENIOR WORLD CLASS DANCE**, the Free Dance shall be skated as the final of the event, with Compulsory and Original Dance (OD) skated as the preliminary round to determine skating order for the Free Dance.

AR17.36.03 Junior **World Class** and **SENIOR World Class Solo Dance** – The free dance shall be skated as the final with the two compulsory dances as the preliminary round to determine the skating order of the solo free dance.

AR17.36.04 Warm-up periods shall be timed to assure that each team receives an equal amount of warm-up time.

- AR17.36.05 The music should be checked for proper tempo and phrasing throughout the entire contest. World Class music must be long enough for the proper amount of repetitions to be skated.
- AR17.36.06 Flights and rest periods during judging should be timed according to AR17.34.01.
- AR17.36.07 The referee should check each flight as it takes the floor to make certain the correct teams are skating.
- AR17.36.08 The referee should position himself so he will have a clear view of the floor, with access to the announcer's stand and the music coordinator/sound room, etc.
- AR17.36.09 The referee shall deal with interruption as described in AR17.35.

**AR17.37 MISSING TEAMS**

- AR17.37.01 If, after a contest has been started, a team is missing when their flight is called, identify the missing team and direct the announcer to call for them. If they do not appear, inform the judges that the team has withdrawn and continue the event. Once this has happened, a team may not re-enter the contest.

**AR17.38 FIGURES AND DANCES DRAWN FOR AN ELIMINATION ROUND**

- AR17.38.01 At the Regional Championships, because of a small entry or withdrawals, the elimination round becomes the final for that event, the figures or dances previously drawn for the elimination shall be those skated in the final round.
- AR17.38.02 When a semi-final is listed, but because of withdrawals becomes unnecessary, the dances or figures listed for the final shall be skated in that final event, which now follows directly on the elimination round.

**AR18.00 SCORING**

- AR.18.01 All scoring by commissioned judges is to be accomplished by the use of the "integer system" (0 through 100), except as described in AR18.02.

0	Not Skated	60-69	Fair
10-19	Incomplete	70-79	Good
20-29	Badly Skated	80-89	Very Good
30-39	Poor	90-99	Excellent
40-49	Minimum	100	Perfect
50-59	Average		

- AR18.02 The FIRS scoring forms and CIPA scoring system are to be used for all WORLD CLASS events at official championships to determine medal placements. The CIPA scoring range is zero to ten (0-10).
- AR18.03 Regional Championship Scoring - The USARS National computer scoring system for championships will be mandatory for all Regional Championships so the benefits of this program may be realized with the preparation of the National event programming. All regions must use the USARS National reporting format by electronic transmission of the Regional Championship results, required to be sent to the National Office for compiling the National Championship entry by event. These results are in a fixed format, which includes standardized event numbers.

**AR18.04 COMPETITIVE SCORERS COMMISSIONS**

- AR18.04.01 The three classes of USARS Competitive Scorers Commissions are:
  - "TA" - Chief Scorer
  - "TB" - Tabulator (qualifying and regional championships)
  - "TC" - Tabulator (contests)
- AR18.04.02 To obtain a "TC" commission as a tabulator, the candidate must hold individual membership with USARS, be a member of a USARS club and demonstrate in at least three meets the ability to enter data using the approved USARS computer tabulation program supervised by a current "TB" or "TA" tabulator. The "TC" commission will be awarded by the USARS National Headquarters upon recommendation of the supervising "TB" or "TA" tabulator. The "TC" tabulator's commission qualifies one to tabulate at all contests which do not lead to the National Championship.
- AR18.04.03 A "TC" Tabulator may apply for upgrading to a "TB" Tabulator by making application to the USARS National Headquarters for a "TB" Tabulator's exam. This is a written, open book exam without time limits; however, the candidate must receive a passing grade in accuracy. The candidate must demonstrate computer tabulation in at least three (3) meets and must be hand tabulation capable. Verification by a "TA" tabulator is required. Upon successfully passing this exam, the "TB" Tabulator is qualified to officiate as a scorer at qualifying, regional, and national championships or as a chief scorer at qualifying or regional championships as approved by the state or regional association. The applicant must be a current member of USARS.
- AR18.04.04 To obtain a Chief Scorers commission, the candidate must be a current member of USARS and hold a current "TB" tabulator commission. To obtain the "TA" tabulator commission, the candidate must have worked at least three (3) major invitationals, Regional or National Championships under the supervision of a current "TA" commission holder. The "TA" Chief Scorer's commission will be issued by the USARS National Headquarters upon the recommendation of the supervising "TA" tabulator. The "TA" tabulator's commission shall qualify one to officiate as Chief Scorer at all qualifying championships.
