

ARE YOU ELIGIBLE FOR THE NOVICE DIVISION (SPEED)

1. Have you ever placed in an individual event in Freshman or above at any Quad (Indoor) National Championship in 1992 or before? If so, you ARE NOT eligible for Novice.
2. Have you ever entered (submitted entry form and payment) an individual standard event at an Inline (Indoor) National Championship in the Elementary division or older? If so, you ARE NOT eligible for Novice.
3. Have you ever placed (1st, 2nd, or 3rd) in the Primary or Juvenile individual divisions at an Inline (Indoor) National Championship? If so, you ARE NOT eligible for Novice.
4. Have you ever placed (1st, 2nd, or 3rd) in a Junior World Class or World Class individual race at an Outdoor National Championship (excluding the marathon)? If so, you ARE NOT eligible for Novice.
5. Have you ever placed (1st, 2nd, or 3rd) in an individual Junior Olympic event at the Indoor National Championships? If so, you ARE NOT eligible for Novice.
6. Anyone not meeting the above criteria is eligible for the novice division.

Points to remember:

Any placements listed above will not change your eligibility for the current season. For example, if you place at your regional championships in both a standard individual event and a novice event you are eligible to skate both at that years national championships. Your ineligibility for novice will not start until the following season. If you place first in Junior World Class or World Class at outdoor nationals and were previously eligible for novice, you may still skate novice at that years indoor nationals. Again, your ineligibility for novice will not start until the following season.
